

# Police Headquarters – Bury

**ELECTRICAL**  
ENGINEERING LTD

The new three-storey building is situated on Castlecroft Road in Bury just minutes from the existing Bury Police Station and forms part of the £20m development plans by Greater Manchester Police. The divisional HQ has a crime scene examination area, custody suites, general office areas and car parking. C & S carried out the installation of electrical works incorporating and working closely to GMP's "preferred installation methods, equipment and best practices". Our scope included mains distribution, an extensive lighting and small power installation and the provision of the containment for the numerous specialised services.
